

Geckolighting® LED Horizontal PLC globe

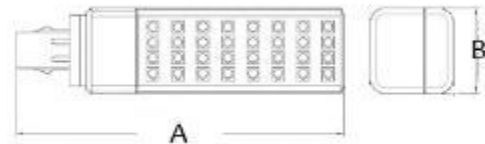

Quality Geckolighting® LED PLC/G24 (self-ballasted) globe. High output LED alternative for PLC/G24 base fittings. Note: **Ballast must be by-passed** prior to installation (saving additional energy and maintenance costs). They are an ideal replacement for existing commercial and domestic fluorescent fittings. Economical LED technology not only reduces power consumption, but eliminates UV, Mercury and other toxic hazards.

These globes are directional with swivel base to obtain optimum light direction.

Standard colour options of Cool White (6000k), Neutral White (4500k) or Warm White (3000k). Other colour options are available on order.
